Aerial Photos

Step 1: Enter your project's address information and click "search."

- Find a specific location on the map
- Display information related to that location
- Generate and print reports to evaluate the site

Map Navigation Tools

Double-click on the map to zoom in, and drag to pan. Hold down the

Find a Location

Find a specific location on the map one of two ways:

1. **Address** – Enter street address, cross street (optional) and city name
2. **Location Tool** – Click on , then click on a point on the map. The "Results" panel will display information about the location.

Display Information

Data layers from the following categories can be displayed on the map:

- Environmental
- Economic Growth/Planning
- Work Force/Demographics

Transportation layers including rail and airport locations can also be displayed by clicking on the **Aerial Photos** button in the upper right corner of the map.

Legend – a legend that explains the colors/patterns/symbols depicted on the map.
